

NECI is a non profit, Non-governmental organization. Willing European volunteers from different backgrounds aim to collaborate to assist on (a) reducing the discrimination and marginalisation, (b) realising our common European Identity through multiple activities which are based on seminars, workshops, study visits, job shadowing, volunteering, youth exchange, etc, (c) feeling and living all opportunities we are entitled to as EU citizens. Thus, we aim to create a powerful group/team of citizens of Europe from different cultural background and educational and financial level who share the same vision: Equal and decent opportunities on lifelong learning, on health and on enjoying a healthy environment.
